## Legend and Map Layers

### Legend

Click the legend button to understand the coloured polygons on the map

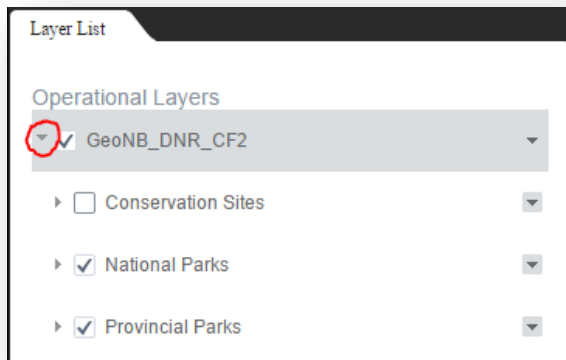

### Map Layers

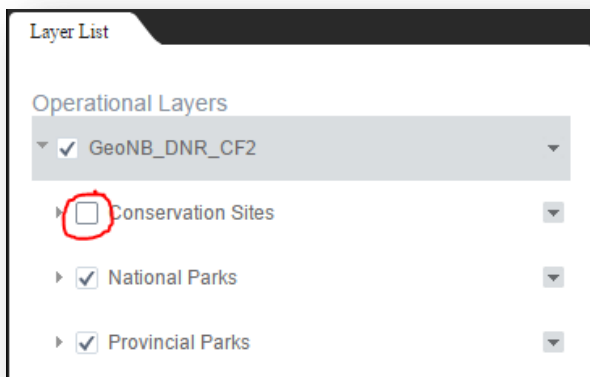

Click the Map Layers button to display the list of map layers. The list can be expanded by clicking on the little arrows on the left side of the list:

# New Brunswick's Designated Crown Land Conservation Areas Map Viewer

The check boxes can be used to hide or display each map layer:

## Zoom, Reset Map, and Locate

### Zoom

Click on the “+” or “-” buttons to change the scale of the map. The map can also be zoomed by:

- using the scroll wheel on your mouse to zoom in or out
- double clicking on the map with a mouse to zoom-in
- Hold the <Shift> key while doing a click and drag with your mouse
- using a pinch gesture on a touch screen

### Reset Map

Click the “Home” button to return to the default view of the map.

## Locate

Click the locate button to zoom and centre the map on your current location. Accuracy of your location depends on the device that you are using. You may be prompted to allow your current location to be accessed. This tool may not work on all devices.

## Measure, Draw, and About

### Measure

The Measure tool can be used to make three types of measurements:

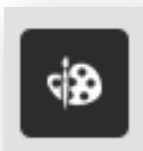

area	
distance	
coordinates	

Tip: When measuring a distance or area you must double click when defining the last point in your measurement. Below is a sample distance measurement:

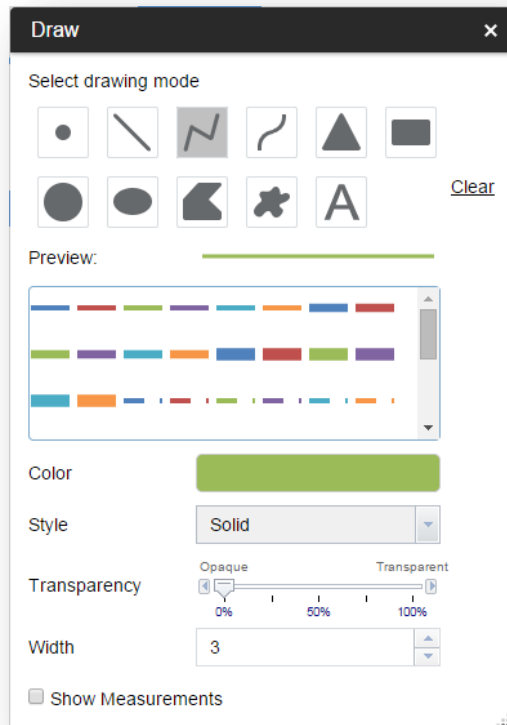

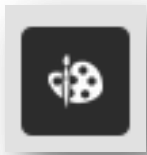

### Draw

The Draw tool can be used to add various types of lines, shapes, and text to the map. There are many options including colour, size, font, and transparency. All drawings are temporary.

Here is a sample of the options available for drawing a line:

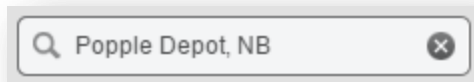

## About

The About tool displays a description of the map.

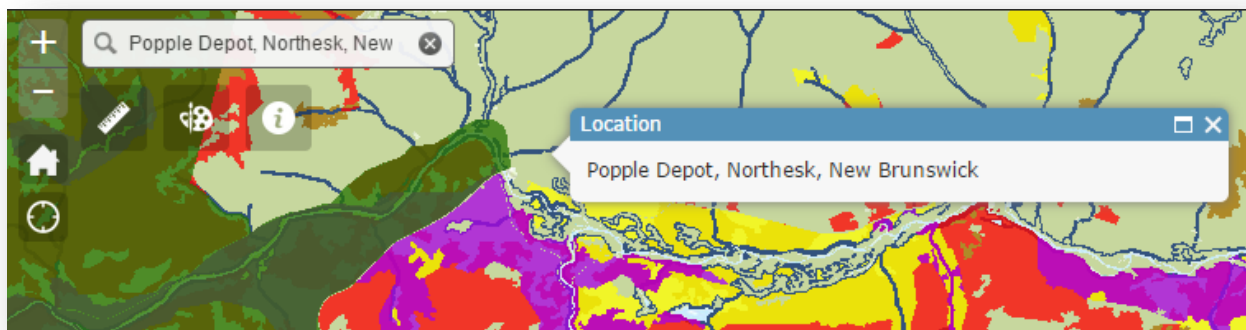

# New Brunswick's Designated Crown Land Conservation Areas Map Viewer

## Address Search

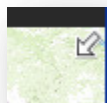

The Address Search will locate communities (e.g. "Popple Depot, NB") or individual addresses (e.g. "2 Foymount Street, St. Margarets, NB"). It is necessary to include ",NB" in the address or the results may include locations with a similar address outside of New Brunswick.

## Overview Map

An Overview Map can be displayed by clicking the little, white arrow in the top right corner of the map:

The shaded area on the overview map represents the area displayed on the large map. Drag the shaded area on the overview map with the mouse to quickly view a different area of the province.
